

# A Smart Age with HIV: Challenges for clinical care of an aging population infected with HIV

## Dr. Giovanni Guaraldi

University of Modena & Reggio Emilia, Italy

Giovanni Guaraldi, MD is an international expert on HIV and Aging. He has led the Italian Modena HIV Metabolic Clinic (MHMC) cohort since 2000, a referral centre with a multidisciplinary team and a multidimensional evaluation of more than 4500 patients aging with HIV.

January 13, 12:00 – 1:00 pm Atlantic

CHEB Room C264

Also via Live Webinar

Join in-person or online to discuss challenges for the clinical care of the aging population with HIV and discuss the research gaps and opportunities for a “geriatric-HIV” science in its infancy
